

CALLING ALL ENGLISH TEACHERS!!!

Are you a qualified English or ESOL Teacher?

Have you previously taught IELTS or OET?

Are you able to volunteer weekly, for a couple of hours, long term?

IF SO, WE NEED YOU!

Lincolnshire Refugee Doctor Project is a Community Interest Company who will be assisting refugees with medical qualifications, living in the UK, to work within the NHS.

As part of the curriculum our doctors are required to pass the OET exam designed specifically for the medical professionals.

We are looking for Teachers who can teach English as a second language, or more specifically, ones who have previously taught IELTS or OET.

For the first year the class will consist of ten doctors all studying at various levels of English for 3 hours, four times a week. This will require several volunteers for us to cover the requirements.

We are looking for English teachers who are able to develop an appropriate curriculum, delivery of classes each week and provide the relevant support for our doctors to pass the OET exams.

The programme, which will be based in Grimsby, is due to start in September this year.

If you are interested and require further information, as well as an application form, please email muna.abujaber@lincsrefugeedoctors.co.uk.
